TOP TECH SKILLS

EDUCATION

Federal Polytechnic
Nasarawa State, Nigeria
Computer Science Graduate

PROFESSIONAL SUMMARY

Motivated **Computer Science graduate** from Federal Polytechnic Nasarawa with a specialized focus on **Cybersecurity** and system integrity. Equipped with a solid foundation in networking fundamentals, ethical hacking, and AI-driven troubleshooting.

Highly skilled in document engineering and digital productivity tools, with a proven track record of optimizing workflows through technology. Passionate about identifying vulnerabilities and implementing robust security measures to protect digital assets.

PROFESSIONAL EXPERIENCE

Computer Operator & Technical Assistant

IT Services Center | Nasarawa State

- Managed end-to-end document preparation, including professional PDF creation and complex data formatting.
- Performed technical troubleshooting for hardware and software issues, ensuring 99% system uptime.
- Utilized AI-powered productivity tools to automate repetitive data entry tasks and improve content accuracy.
- Conducted regular internet research to implement security best practices for local network management.

CYBERSECURITY FOCUS AREAS

- ▶ Vulnerability Assessment

▶ OSINT Research

▶ Firewalls & VPNs

▶ Incident Response

▶ Cryptography Basics

▶ Malware Analysis

CORE COMPETENCIES

- Productivity:** Advanced Microsoft Office Suite (Word, Excel, PowerPoint).
- Technical:** Expert PDF editing, formatting, and digital file management.
- Behavioral:** Critical thinking, rapid problem solving, and collaborative teamwork.
- Learning:** Active participant in continuous cybersecurity labs and CTF challenges.

CAREER GOAL

To secure a challenging role within a security operations center (SOC) or IT department where I can leverage my Computer Science

background to mitigate cyber threats and support organizational growth.
